### DEVELOPING COMMUNITY INITIATIVES

As County Councillor I have been glad to support local organisations such as the Wayland Partnership Development Trust, developing community initiatives such as the recently held Tourism Conference, a workshop held to generate new ideas to bring employment income from tourism into the Wayland area.

### WORKING WITH MID-NORFOLK'S MP

George Freeman MP endorses Claire: "She is dedicated to doing her best for the community where she has lived and worked all her life. Claire has represented Watton on Breckland Council for 10 years, and during the past year at Norfolk County Council. I know she will continue to work hard for Watton."

### SECURITY AND SAFETY FOR ALL

In 2016, a proposal was made to switch off street lights along Brandon Road leading to the Cranswick Food factory. Claire was able to lobby on behalf of the residents and workers and the lights have remained on, retaining security and safety for all.

I have been the Watton Division representative at Norfolk County Council since November 2015 and I am an impassioned advocate for democracy at all levels.

Having become increasingly disillusioned with the usurping of Westminster's ability to control our country's future way in the world, I voted to leave the EU in June 2016 referendum.

The strong foundations of democracy present in Breckland and Norfolk stand us in good stead for the future but the feelings of residents must be reflected in the national decision making process as we build a new future for our children and

grandchildren in a post Brexit world.

I was born in Watton and have lived and worked in the Watton and Wayland area most of my life, raising my three children here. I have been privileged to represent Watton at Breckland District Council, for the past 10 years.

Dedicated to Watton and Wayland, which I feel is a special part of Breckland, my support for our community is shown in my volunteering as Secretary to the Wayland Agricultural Society, continuing a family association with Wayland farming and the local food industry stretching back three generations.
